

Power Your Business With Solar and Save.

We offer flexible products with electricity savings of up to 50%.

Zero Capital Outlay

Zero Maintenance Costs

Power Purchase Agreement

Who is Eligible

Commercial and industrial businesses that operate during the day.

How it Works

Ecovantage will build, own and operate solar on the roof of your premises. You will buy the electricity generated at a cheaper rate than from the grid.

Benefits

- No capital out-lay
- Substantial energy savings
- We manage all maintenance, insurance and cleaning

Example Scenario

Business spends \$300,000 on electricity per annum

Ecovantage install 300 kW of solar on business' roof

Business saves \$45,000 on electricity in the first year

Ecovantage offer solar power purchase agreements to businesses

Building Value

Solar System Buy-Back

Who is Eligible

Businesses who have purchased a solar system in the last 4 years, either by cash or on a lease/loan arrangement.

How it Works

Ecovantage will purchase the system from you. You enter into an agreement to purchase the energy produced at a significantly cheaper rate than grid power.

Benefits

- Instant cash injection for your business
- All maintenance, insurance and cleaning is fully included

Example Scenario

500 kW System

\$500,000 cash payment
to business

Business pays 12c
for solar energy

We finance, install and maintain solar systems for businesses

Why Solar PV?

Increased efficiencies in solar PV and inverter technology

Reliable, proven method of generating renewable energy

High Australian solar irradiation characteristics and highly predictable electricity generation forecasting

Increasing energy costs and high customer pricing

Top tier technology and world-class installation partners

Ability to immediately reduce electricity costs

Strong tenant demand for renewable energy

Easily upgradeable technology platform

Ecovantage works with external finance parties to coordinate and manage all PPA opportunities.
