

Helping Regional NSW Destinations Charge Ahead.

NSW EV Charger Grant Round 2.

The NSW Government is investing \$20 million to assist eligible regional NSW businesses and councils by co-funding the purchase and installation of EV chargers.

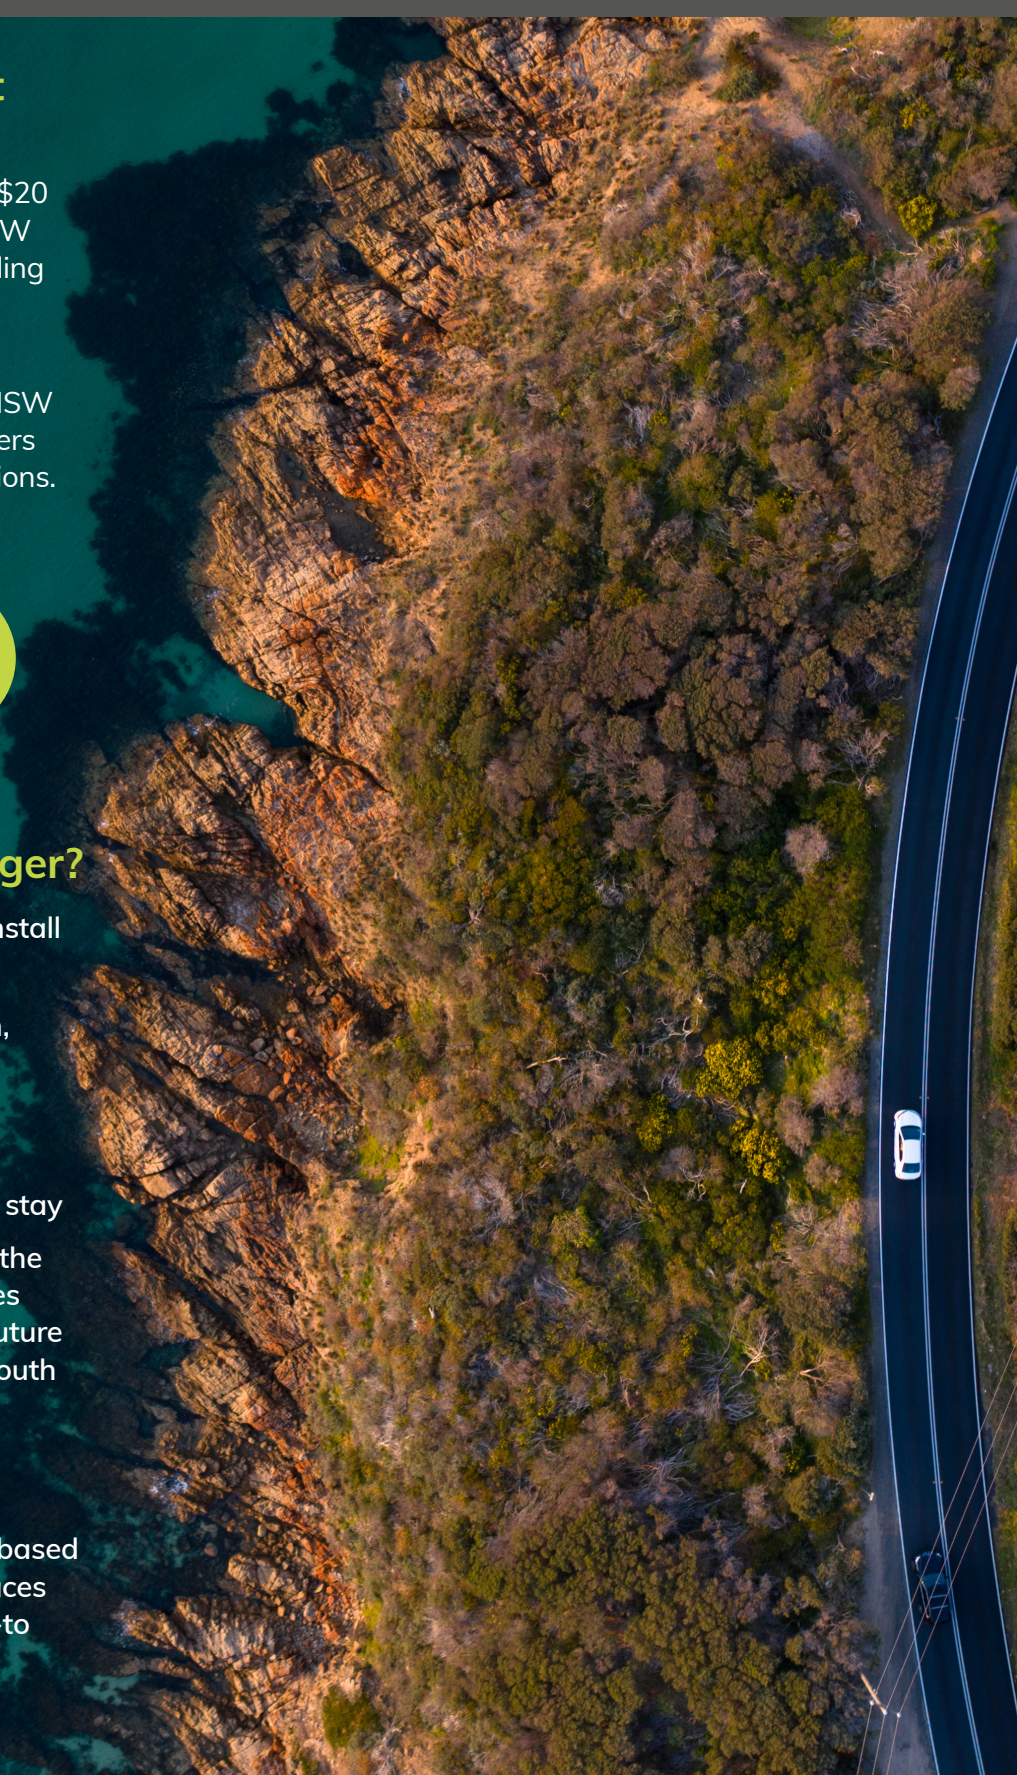

This is the perfect opportunity for NSW destinations to attract new customers and drive more visitors to their Regions.

Grant extended to 2 August 2024

Why Install an EV Charger?

There are many great reasons to install an EV charging station, including:

- attracting new visitors to a town, business, venue or council
- enhancing the visitors' overall experience
- increasing the average length of stay
- enabling businesses to promote the location and EV charging facilities through online charging maps, future EV tourist drives, and word of mouth
- reducing carbon emissions and helping reach Net Zero emission targets
- EV owners often plan their trips based on charger locations, making places with an accessible charger a go-to destination.

How the Grant Works.

The grants will fund the following for up to four (4) EV chargers per site:

- 75% towards the cost of an eligible 7 kW and/or 22 kW electric vehicle charger(s)
- 75% towards the cost of installation (capped at \$3,000 per charger)
- 75% towards the first year of an eligible annual EV charger software subscription.

Grant Eligibility.

To be eligible, you must be:

- located in an eligible regional NSW local government area (LGA)
- be listed on the Australian Tourism Data Warehouse (ATDW)
- have no more than four (4) existing EV charging ports installed.
- an approved destination type:
 - Accommodation
 - Attractions
 - Events (permanent venue)
 - Food and drink
 - General services
 - Hire
 - Information Services
 - Transport services
 - Tours

How Ecovantage Can Help.

Ecovantage's EV Specialists are here to help identify the most suitable charging solution for your business. We are a leader in this field and will support with grant eligibility and applications. Having installed EV chargers all over the country, we will be there every step of the way, from purchase and installation, to setup and demonstration, and providing expert ongoing support.

Let's Talk.

Speak with one of our EV Specialists today about how we can work with you to install an EV charger and reap the benefits.
